

Saturday, October 31st

Naked Winery from the Gorge will be pouring several wines. This will be fun....

Naked Winery is a Family Owned Winery

The Barringer and Michalec families hooked up at the turn of the century and have since formed Naked Winery. In addition to our Washington based winery located in Wishram we've recently opened our downtown winery in Hood River, Oregon (our hometown and company headquarters) about 60 miles east of Portland on the Columbia River separating Oregon and Washington State.

Naked Winery produces Washington and Oregon Wines

The grapes for our red varietals (Syrah, Cabernet, Sangiovese, Nebbiolo, Barbera and Merlot) are organically grown in the hot and dry Apple Gate and Columbia Valley regions of Oregon and Washington respectively. While our other varietals (Pinot Noir, Pinot Gris, Chardonnay, Muscat and Riesling) benefit from the cool pacific marine layers of the Willamette and Illinois Valley's to produce subtle and complex wines. The vines in Washington's Columbia Valley struggle with just enough drip irrigated water to produce exceptional fruit for our big bold Chardonnays.
